Growth in PrEP Enrollment

If growth continues as in the last 6 months, 273 patients will be enrolled by June 2016

The Rest of The Story

of New PrEP patients (by month)

	# patients
>1 month	134
>3 months	108
>6 months	72
>12 months	28

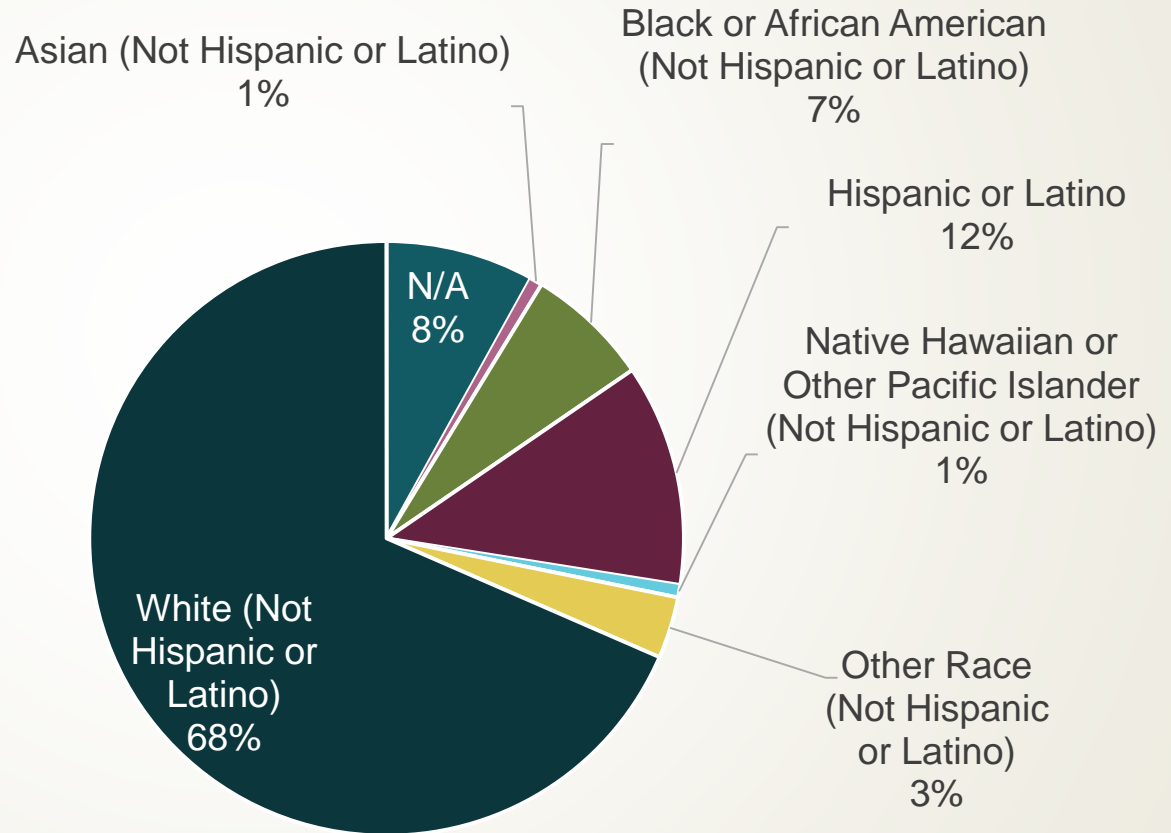

Most Patients are Gay White Men between 25-34 years

as of 8/17/2015

N= 149

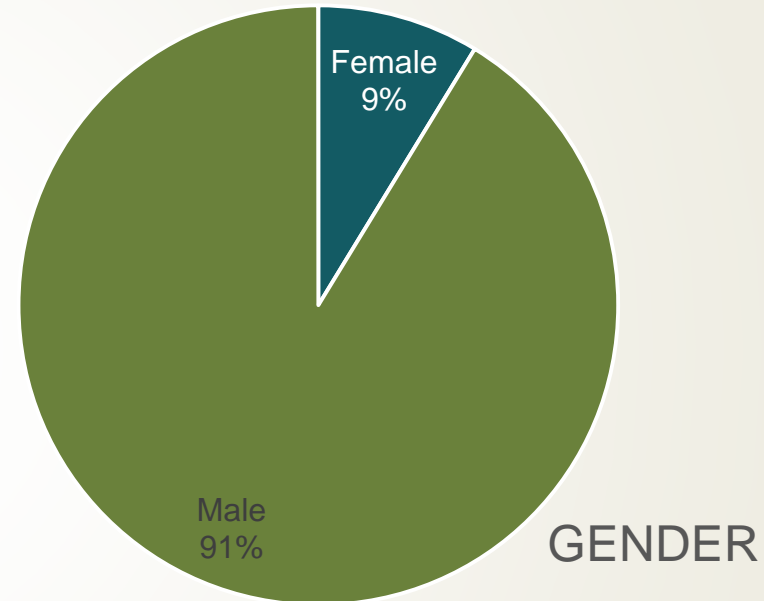

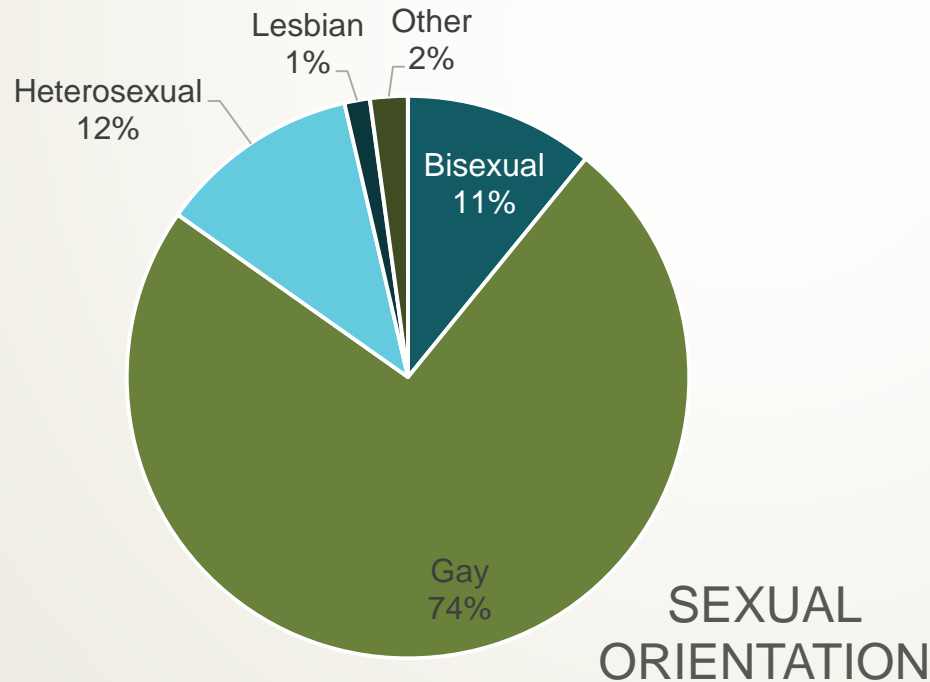

AGE

Most Patients are Gay White Men between 25-34 years

as of 8/17/2015

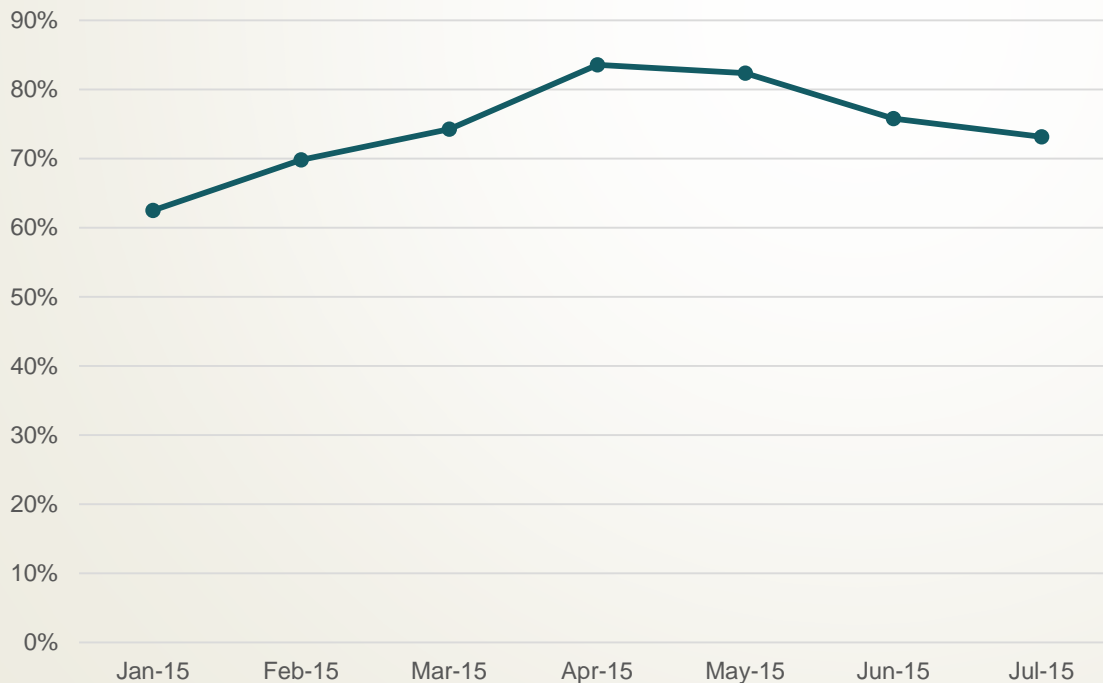

N= 149

Outcomes

Adherence to 3 month follow-up visits

% of patients with HIV tests completed in the last 90 days

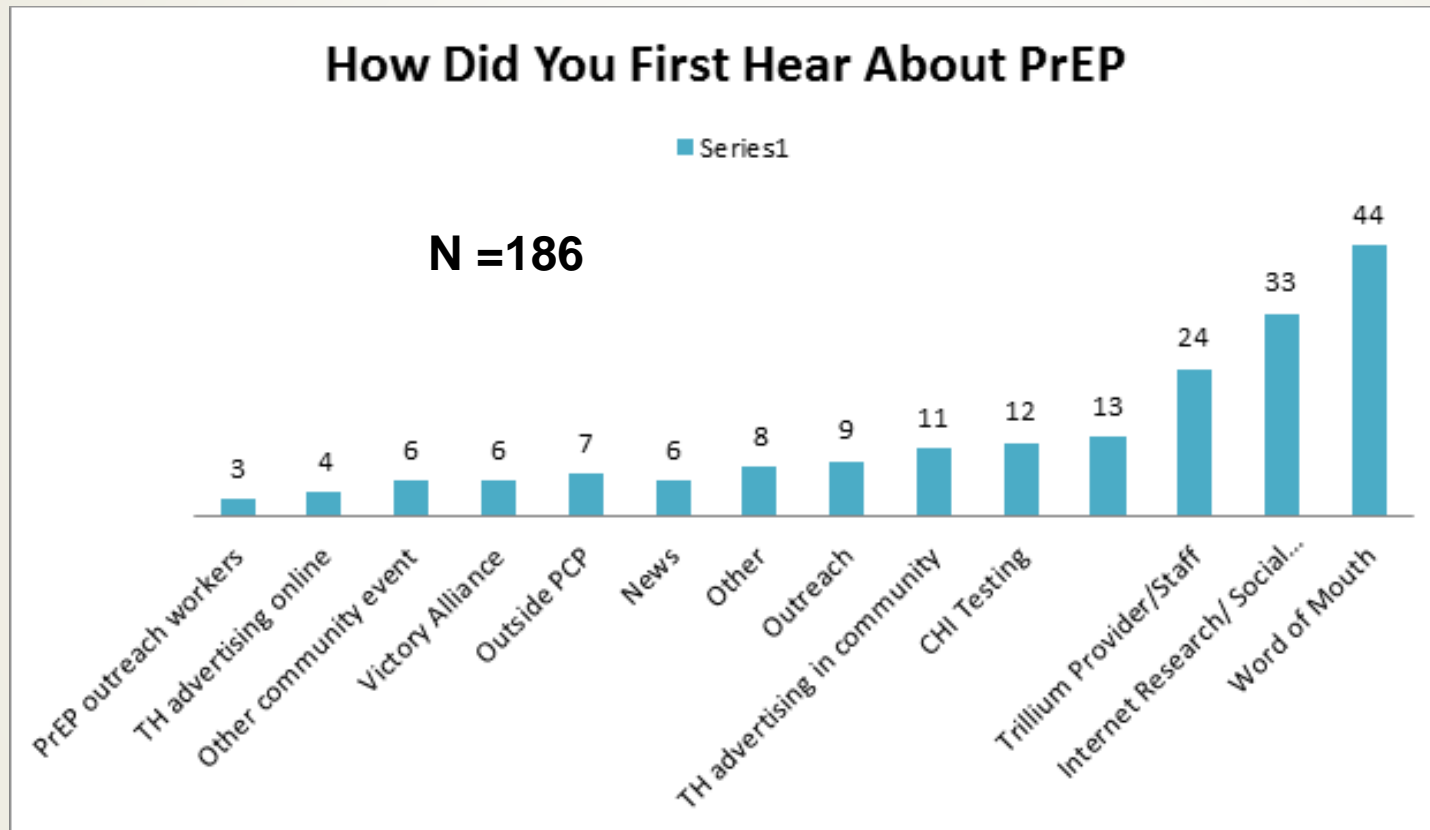

A community survey of MSM at risk conducted in 2014 indicated that a significant barrier to taking PrEP was the need to see a provider every 3 months.

Program Successes

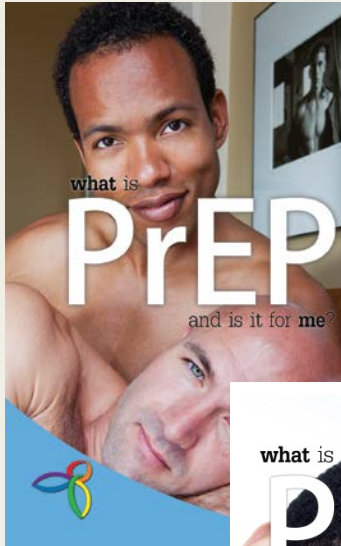

- ✧ Informatics ability to pull data from EMR
 - Standard searchable data fields
- ✧ Internal PrEP coordinator
- ✧ Viral load workflow
- ✧ 50% of PrEP patients enroll in primary care
- ✧ Partners
 - Local Health Dept
 - City of Rochester
 - Donors to EtE 2020 Fund

PrEP participants: How did they find Trillium Health

Marketing

what is
PrEP
and is it for me?

You've got questions.

Let's talk about **PrEP** and see if a new way of preventing HIV is right for you. PrEP is a preventive medication that can help reduce the risk of becoming infected with HIV.

We'll work with you to make sure cost doesn't get in the way of your health. Our in-house pharmacy and insurance navigators can help.

Many insurance plans, including Medicaid, cover PrEP. Assistance may be available if you are uninsured.

Let's talk about it:

PrEP Mobile Phone App

Challenges

- ✧ Capacity
- ✧ Shortening wait time for appointments
- ✧ Enrollment of MSM of Color – merger w MOCHA
- ✧ Enrollment target
 - 280 patients by May 2016
- ✧ High deductible insurance plans
- ✧ Addressing intimate partner violence in women
- ✧ Internal education/ intake process

Outcomes

✿ 6 month sub-analysis (N=98)*

- Adherence to appointments 90%
- STIs reported (mean)
 - Before vs during PrEP 7.4% vs 3.0%
- # sexual partners
 - Before vs during PrEP 4.1 vs 3.0

✿ Barriers to starting PrEP: MSM web survey (N= 253)

- Need to see provider every 3 months
- Potential side effects
- Need to take medication daily

Thank You!

GET TESTED. TREAT EARLY. STAY SAFE.

End AIDS.
